What is this class all about?

The following are descriptions of the light horse classes to help spectators better understand
What the judge is looking for.

Equine Canada rules over-ride any explanation given in this section.

Halter classes are divided into 2 types: confirmation and showmanship.

Confirmation – This class evaluates the conformation of the horse. Classes are divided by age and sex. Horses are shown on the halter and are traveled before the judge so that lameness and quality of movement can be evaluated. Horses are judged on balance, structural correctness, and breed and sex characteristics. In addition to age and sex divisions, horses may be judged on type and their suitability to a specific application, i.e. saddle type or harness type.

Showmanship – This class is designed to judge the showmanship skills of the exhibitor. The judge evaluates the grooming and fitting of the horse and expertise of the exhibitor in presenting the horse. Each exhibitor is required to perform a pattern designed by the judge with emphasis on preciseness of pattern and degree of confidence exhibited by the showman.

Hobby Stick Horse Class— 6 Years and under. Ring Side entry. No Entry Fee. Bring Your Own Stick Horse

Western classes are conducted in Western tack and attire. Classes are divided into 2 types: equitation and performance.

Gaits – The 3 major gaits in western classes are: Walk, Jog and Lope. Horses must also halt and back up.

Western Equitation\Stock Seat Eq. – This class is designed to test the horsemanship abilities of riders using western tack. The class may be divided into 2 sections; riders may first follow a prescribed pattern of maneuvers at a walk, trot or lope. Finalists may ride as a group around the perimeter of the arena. Judging focuses on the rider's body position, seat in the saddle and ability to control the horse.

Western Pleasure – This is one of the most popular show events. Contestants compete simultaneously, traveling the perimeter of the arena, and at the discretion of the judge, are asked to walk, jog, lope and reverse the direction of the horse. Horses are evaluated on quality of movement while staying quiet and calm, traveling on a loose rein. This horse should be "a pleasure" to ride. This class is offered in all age groups as well as a Jack Benny/Doris Day Class (rider is over the age of 50)

Western Riding – This class judges the abilities of the horse to change leads precisely, easily and simultaneously, using both hind and front legs. Following a designated pattern, consisting of a log and a series of pylons, the horse and rider must change gaits (from walk to a jog or a lope) throughout the course. Reward is given to the horse that changes fluidly and precisely between the middle of the pylons within the pattern. Emphasis is placed on smoothness and an even cadence of gaits. The horse should cross the log both at the jog and the lope without breaking gait or radically changing stride.

Reining – This class judges the horse on movements, mastery of a prescribed maneuver and attitude as he is guided through a pattern. The horse is required to perform a number of stops, spins, rollbacks, lead changes and circles at a lope. The horse should be willing to be guided with little or no resistance. Credit is given for smoothness, finesse, attitude, quickness and authority of performing various maneuvers, while using controlled speed. This raises the difficulty level and makes him more exciting and pleasing to watch.

Trail – The trail class tests the maneuverability of a horse through an obstacle course. Mandatory obstacles include one in which the rider will open, pass through and close a gate. Other mandatory obstacles are riding over at least 4 logs or poles and 1 backing obstacle. The judge will assign a point value to each obstacle and points will be added to or subtracted from this score based on the horse's willingness, ease and grace in negotiating the course.

Ranch Riding - The purpose of Ranch Riding should reflect the versatility, attitude, and movement of a working horse. The horse's performance should simulate a horse working outside the confines of an arena and that of a working ranch horse. This class should show the horse's ability to work at a forward, working speed while under control by the rider. Light contact should be rewarded and horse shall not be shown on a full drape of reins. The overall manners and responsiveness of the horse while performing the manoeuvre requirements and the horse's quality of movement are the primary considerations.

Ride a Buck- is a class in horse showing where the rider puts a "Dollar Bill" between the calf and horse. The rider is excused from the class when they lose the dollar, and the last one standing wins

Gymkhana \ Western Speed Events Division

Barrel Racing – This is an exciting race against the clock in which exhibitors follow a course consisting of 3 barrels in a triangular "cloverleaf" pattern. Riders choose to circle either the right or left barrel first, race to the opposite barrel and complete the course after circling the third barrel and racing down the center of the 3 barrels to stop the timer. Knocking over a barrel carries a 5 second penalty.

Pole Bending – This is a timed event in which the speed and agility of the horse are tested as horse and rider twice weave through a course of 6 poles spaced 21 feet apart. From the start line exhibitors ride to the farthest pole and weave the length of the poles and then turn and weave back again. They then turn and race to the finish line. The pattern must be followed exactly. A 5 second penalty is added for each pole knocked down.

Keyhole – In this timed event, contestants must travel from the start line to a keyhole shape marked in flour on the ground. Once inside the keyhole the horse must turn or pivot 180° without touching the white lines. Leaving the same way they came in, contestants run to the finish line. If the horse touches or steps over the white line they are disqualified.

Quadrangle Race- is a specific, timed, pattern-racing event, requiring precise control, tight turning and speed from both horse and rider.

English classes are conducted in "English" tack and attire. Classes are divided into 2 types: equitation and performance.

Gaits – The 3 major gaits in English classes are: Walk, Trot and Canter. Horses must also halt and back up

English Equitation – This class tests the ability to ride, not the performance of the horse. As in western equitation, contestants work a predetermined pattern consisting of maneuvers such as changing gaits, backing up as well as posting (rising in the saddle) on the correct diagonal and counter-cantering. Riders are usually judged individually and then return to be judged as they travel the perimeter of the arena performing gait changes at the judge's discretion. Emphasis is placed on ability to sit correctly, hold the correct riding posture and control the horse on a precise pattern.

English Pleasure – In this class the judge evaluates a hunter-type horse on the flat, both directions of the arena, at a walk, trot and canter. Emphasis is placed on smoothness of gait, free-flowing stride and willingness to perform.

Hunter – This event includes several divisions based on the configuration and height of the fences. The class demonstrates the gracefulness of the horse as it maneuvers a course consisting of at least 4 obstacles but must jump a minimum of eight fences (some may be jumped twice). Manners, style of jumping, flow of strides, balance and keeping an even hunter pace are factors in the judge’s scoring.

Jumper – Jumping is a test of a horse’s athletic ability to perform over fences. Jumping consists of at least 4 obstacles and a minimum of 8 jumps (some may be jumped twice). Scores are based on time and penalty faults. Faults are assessed when a horse refuses to jump, knocks down an obstacle or causes the height of an obstacle to be lowered. Horses completing the course without faults return to compete in a timed “jump off” to determine final placing.

Joker Poker: Each jump is scored. Contestants have one minute to complete the course in any direction, jumping each obstacle up to twice; not all jumps are required. After one minute, they can attempt the **JOKER** jump for ±100 points. Scores determine placings.
